

# ACE Animal Hospital

## Preparing for your Pet's Surgery/Dental

- Do not feed your pet within 12 hours of your scheduled drop-off time. Water is allowed and encouraged until you leave for the hospital. If your pet is currently taking any medications check with your doctor as adjustments in dosages may need to be made on the day of surgery.
- Drop-offs are typically scheduled from 8:00 am to 9:30 am.
- During the drop-off, be prepared to provide pertinent information about your pet's health and answer any questions our team may have about your pet's current condition upon presentation.
- You will be asked to sign an anesthesia/hospitalization consent form and an estimate, allowing our doctors to proceed with the prescribed diagnostic/surgical/medical services. A deposit for the high end of the estimated fees is required at the time of drop-off. Please allow at least 20-30 minutes for paperwork completion and drop-off.
- Please be sure to provide a good contact phone number where the doctor/staff can reach you at any time during your pet's stay with us.
- Most patients can go home between 4:00 PM and 7:00 PM on the day of the procedure. Our team will schedule you a more accurate pick-up time after the procedure is completed. We like to be sure that your pet is closely monitored while they are recovering from anesthesia. If you have any questions, please be sure to ask any of our staff.
